

## ELC'S NEW STRATEGIC PLAN

The Early Learning Coalition of Pinellas County has undergone an extensive community assessment and interactive planning process to chart the course of the next five years.

The strategic plan will strengthen the early learning infrastructure in Pinellas County through systemic, sustainable and scalable programming. Recognizing the currently changing environment, strategies may be revised to respond to acute needs. Implementation of early learning legislation passed in the 2021 session will impact future programming.

Our plans have been designed with these changes in mind, but may require adjustment down the road.

[Text Link](#)

Our strategic planning process included environmental scans, SWOT analyses and stakeholder feedback. **This included input from over 150 providers, over 200 parents/caregivers, ELC staff, ELC Board of Directors and community partners.**

ELC staff have reviewed all existing programming to realign according to the newly set priorities. All elements of the strategic plan have been developed with an equity lens. Programming is designed to prioritize resource allocation to the populations of the greatest needs.
